May 13, 2017 - However, when I tried to open the mod menu in the Nexus mod manager, it said I was missing "update.esm". I tried to check the game files... However they were ok. I tried uninstalling and reinstalling mods but they didn't work. I tried uninstalling and reinstalling the game, but I couldn't download it. I also tried uninstalling and reinstalling the game on another computer, but I could still load it on the computer where I had just uninstalled it. I'm not sure what's going on, so I'd like to ask a few questions to resolve this issue. First, what game files will be affected if they are deleted or reinstalled?
